## REPORT OF THE DEPUTY MINISTER.

The Right Honourable

Sir RICHARD J. CARTWRIGHT, G.C.M.G.,  
Minister of Trade and Commerce,  
Ottawa.

SIR,—The record of the trade and commerce of Canada for the year ended June 30, 1904, as set forth in this the twelfth Annual Report of the Department, is, as will be seen by the various detailed statements, a continuance of the story as told in reports or several preceding years, of continued increase in the aggregate trade of the country, though while the advance has been one of kind, it has varied in degree. The aggregate increase has been \$5,668,353.

There has been an increase of nearly \$18,000,000 in the imports, and a falling off in exports of over \$12,000,000, leaving a net gain as above. The increase in imports during the year has been general on all important articles, notably among them, coal, coke, etc., to the extent of about \$4,640,000; sugar and molasses nearly \$2,300,000; tea, \$1,222,000; wood and manufactures of, \$2,400,000; wool and manufactures of, over \$1,700,000; electrical apparatus, nearly \$800,000. The exact figures as regards the articles are shown in the detailed statements herewith published.

On the other hand, the decrease in exports amounted to over \$1,600,000 on animals living; over \$10,800,000 on breadstuffs (wheat); over \$1,000,000 on fish; over \$4,000,000 on provisions and over \$3,000,000 on wood unmanufactured. There has, however, been an increase in the exports of minor articles, aggregating nearly \$8,500,000, leaving a net total decrease of \$12,328,489. In point of fact nearly the whole net decrease is attributable to the one item, wheat. The production for export in Manitoba and the North-west was considerably less than in the previous year, as will be seen by reference to page 745, where the quantity inspected at Winnipeg was but 40,400,000 bushels as against nearly 52,000,000 the previous year, indicating that practically the same proportionate quantity to that produced was inspected as in the year 1902.

It may perhaps be said that the quantity inspected does not indicate the quantity produced, but it does indicate the quantity produced for export. The great influx of immigration into the North-west, and the increased acreage prepared for the coming year's crop, would naturally account for the holding back of a larger quantity for consumption and seed than was the case in the previous year, reducing to that extent the quantity available for export.

It might be interesting to note that the total increase in the aggregate trade of the country for the twenty years from 1873 to 1893 was a little less than \$30,000,000, while for the eleven years since 1893 the increase has exceeded \$225,000,000, yet there is plenty of room for further expansion.

4-5 EDWARD VII., A. 1905

It may be noted that there has been during the year a large increase in the imports from British Guiana and the British West Indies, aggregating in round numbers, \$4,500,000. This has practically all occurred in the imports, and is covered by the item sugar, where the increase from British Guiana has exceeded \$1,600,000, and from the British West Indies, \$2,700,000, or a total of say \$4,370,000; whereas the imports from Germany of sugar fell off to the extent of about \$2,750,000, or to be exact, from \$3,116,741 in 1903, to \$368,717 in 1904. This change in the course of the sugar trade has unquestionably given the Canadian house wife a more satisfactory article than before.

The employment of commercial agents has been somewhat extended during the year. A full report on the subject from the Superintendent of Commercial Agencies will be found following.

The usual unrevised statement for the first six months of the current fiscal year is also published, which shows an increase in imports over the six months of 1903 of about \$5,000,000, but a decrease in exports of over \$14,000,000, less than \$10,000,000 of which, however, was of home produce, and nearly \$5,000,000 of foreign produce.

Respectfully submitted,

W. G. PARMELEE,  
*Deputy Minister.*

## REPORT OF SUPERINTENDENT OF COMMERCIAL AGENCIES.

JANUARY 1, 1905.

W. G. PARMELEE, Esq., I.S.O.,  
Deputy Minister,  
Department of Trade and Commerce,  
Ottawa.

SIR,—I have the honour to present herewith the first annual report of the Commercial Agency Service since I had the honour of being appointed Superintendent of Commercial Agencies.

During the calendar year ended in December, 1904, three more Commercial Agencies were established, viz., in Japan, Bristol, Eng., and Mexico, which now makes fifteen in all.

### WEEKLY REPORT.

In previous years the reports of commercial agents were published only in the Monthly Report of the Department which considerably delayed the publication and distribution of this valuable commercial knowledge, thereby seriously impairing its usefulness. To obviate this the issue of the Weekly Report was begun last February, containing not only the reports of the commercial agents, but all trade inquiries and extracts from commercial papers, and tariff changes and new customs regulations of Canada and foreign countries when of immediate importance to the Canadian business men. All this commercial information is therefore distributed every seven days throughout Canada under the new system as against six weeks to two months and sometimes more under the old.

### WEEKLY REPORT INDEX.

A complete index of the Weekly Report is kept up to date. This was never attempted before. It is the intention to publish this every six months and distribute it to the regular recipients of the Report. This index enables a business man to refer easily to every reference to any line of trade in which he may be interested.

### INDEX TO TRADE INQUIRIES.

With each Weekly Report lists of trade inquiries from the commercial agents and from other sources are published. A complete index of these inquiries is also kept up to date. It has therefore become possible since the publication of the Weekly Report, to immediately furnish anyone with the name and address of every inquirer from abroad concerning any one commodity or subject of trade inquiry, which may be required.

## INSTRUCTIONS TO COMMERCIAL AGENTS.

A special memorandum of instructions to commercial agents was prepared and forwarded, which has greatly harmonized the work and made the foreign service more uniform, systematic and regular.

## REGULARITY OF REPORTS.

Commercial agents are now required to report every month to the Department. Under the previous custom, with one or two exceptions, they reported at intervals of several months though the majority reported quarterly.

## INDUSTRIAL BLUE BOOK.

During the past year there have been distributed more than five hundred copies of the Industrial Blue Book to all parts of the world. This was accomplished through the commercial agents and many were also mailed directly from the Department. This work is the most comprehensive of the kind published in Canada and contains the names and addresses of all the manufacturers of Canada.

It was placed in the hands of the more important British Consulates in Europe, the United States, Mexico and South America, besides being placed in all the largest Chambers of Commerce in Europe and Japan. In acknowledging the receipt of the work the British Consuls were highly gratified, and without exception, all expressed their pleasure and willingness to do all in their power to help Canadian trade.

## A BRITISH CONSUL'S VIEWS.

As one example, I beg leave to quote an extract from the letter from the British Consul at Chicago. He states 'I have only recently taken up my duties at this post, and I venture to take this opportunity to point out to you that this Consulate is always ready to do anything in its power to assist the commerce of any part of the British Empire, but that we are given little information from Canada, and few Canadians ever ask any information from us while we are flooded with inquiries from American firms wishing to send goods into Canada.

## DESIRE TO AID CANADIANS.

'I would suggest that you should regard this Consulate as one of your agencies and make all the possible use of my staff and their knowledge of the trade and capabilities of this consular district and recommend Canadian merchants, manufacturers and others to call on us when visiting Chicago. In this way we should be kept in touch with all that is going on and hear what merchants and manufacturers are looking for, and often be able to follow up some enquiry for a visitor which otherwise we should never have heard of.'

## CIRCULARS TO COMMERCIAL AGENTS.

During the past year special circulars have been addressed to the commercial agents asking them to report upon given subjects of trade interest. All the replies have been in turn published in the Weekly Report. This feature in the conduct of the commercial agency service has been very favourably received by the press and business men of Canada.

## SESSIONAL PAPER No. 10

## UNABLE TO TAKE ADVANTAGE OF OPPORTUNITIES.

It becomes necessary however to report, that it would appear from the present flourishing condition of the commercial agency service, the accuracy and frequency of the commercial agents reports, and the speed with which the reports are printed and distributed throughout Canada, that the service is somewhat hampered in its usefulness and sometimes discouraging, by the inability of Canadian exporters to avail themselves to the full extent of the opportunities offered in the foreign markets.

## SOME CAUSES FOR COMPLAINT.

Prosperity at home has prevented many from engaging in foreign trade, but I regret to report that many instances have been brought to the attention of the Department by commercial agents, some of which have been published, of bad packing, goods not up to sample, negligent correspondence, disregard of promised dates of shipment and neglect of foreign customs regulations. In some cases serious loss has been entailed, in others heavy penalties have been inflicted, all of which has endangered the reputation of Canada in the eyes of the foreign buyer.

These complaints were published from time to time in the monthly reports issued by this department and cover a period of a good many years, but it may be well to give specific reference to a few to illustrate the variety of the complaints received and published since the institution of the Weekly Report.

## NO ATTENTION TO CORRESPONDENCE.

In Weekly Report No. 19—page 4—Mr. Larke, Sydney, Australia, writes:—‘In Wellington a firm had received but three replies to forty-two letters written to manufacturers of various lines. . . . It would be advantageous to Canada that even in such cases the applicants had returned a courteous answer to the letters stating that they could not entertain the proposition, but had passed the letter to a firm which they thought might be able to do so.’

## NEGLECT IN FOLLOWING INSTRUCTIONS.

In Weekly Report No. 21—page 5—in the matter of prompt attention to orders, Mr. Larke states that a certain Canadian firm in acknowledging an order wrote:—

‘Your valued order received and your instructions carefully noted and will be strictly attended to.’

When the goods arrived Mr. Larke states:—‘No attention had been paid to the instructions, and the consignees had to pay a considerable sum in consequence. The loss fell on the Canadian consignor, and though he readily reimbursed his customer, it will take the profit of more than two such shipments to cover the loss of the neglect. When I was assured that such a thing had occurred not once, nor twice, but three times, it is evident the organization responsible for such a succession must be defective.’

## INSTANCE OF BAD PACKING.

Again, in the same report—page 6—Mr. Larke draws attention to many instances of bad packing which has come under his notice. On page 7 of the same report he calls attention to the neglect in answering correspondence, quoting one firm who wrote,—‘I gave my last order six months ago, but at this moment I am not advised when the order is to be filled, or whether it is to be filled at all. With such uncertainty we cannot take the risk of giving large orders.’

## DELAYS IN SHIPPING.

In weekly Report No. 27—page 14—Mr. Ross, Melbourne, Australia, in complaining of certain delays in shipping, states, after referring to a specific case: 'I am positive this delay is entirely attributable to the want of enterprise on the part of the head office in Canada, and prompt measures should be adopted to effect a drastic change in such an inert policy.'

## LACK OF BUSINESS COURTESY.

In criticising business methods further Mr. Ross remarks;—'I have frequently found Australian merchants express surprise at the lack of enterprise and business courtesy many important Canadian houses evidence in their transactions. Too many Canadian firms have taken "random shots" at the Australian trade; have interested importers in their commodities, established connections, and then, when the Australian merchant has been at considerable trouble and expense in preparing to put the line on the market, he finds the support withdrawn without any apparent good reason, and often without even a line of explanation.'

## EXPERIENCE OF A COMMERCIAL AGENT.

Upon the same subject Mr. Ross complains at length of the manner in which Canadians treat their correspondents from Australia and states,—'It is obvious that Canadian firms should remove this stigma on them, if they have any desire to secure and maintain a good name. That these complaints are justified is, in a degree, evidenced by the fact that frequently special reports sent from this commercial agency direct to Canadian inquirers are not acknowledged. Commercial rights are human, and it is therefore, rather discouraging when their efforts are not recognized—not necessarily favourably.'

## LORD STRATHCONA'S STRICTURES.

In Weekly Report No. 28—page 8—Lord Strathcona complains of the selling of July and August made cheese as September cheese.

Again on page 22 of the same report, Lord Strathcona complains that 'Canadian firms who profess to be interested in export trade in various lines, have never even acknowledged receipt of letters addressed to them. In other cases, comment has been made as to the great delay experienced in receiving replies.'

## PLACING CUSTOMERS IN OPPOSITION.

In Weekly Report No. 29—page 17—Mr. MacLean, Yokohama, Japan, complains of a certain faulty business methods in which a Canadian firm in filling an order for Canadian cheese in pots 'took advantage of his opportunity to send, on consignment a supply of the same article to a neighbouring firm; thus placing his consignment in opposition to his own cash customer.'

## DELAY IN SHIPMENTS, ADVICES STILL LATER.

On the same page he refers to an order for butter which was acknowledged by the Canadian firm on the 27th April, and the butter only arrived in Yokohama on the 14th July. Mr. MacLean goes on to say,—'During this long interval the dealer here had to supply his customers with Australian butter, which he can get when he requires it. A further cause of delay and annoyance was that although the butter came on the *Tartar*

## SESSIONAL PAPER No. 10

the papers, including invoice, bill of lading, &c., came by the *Empress of China* four days later; the goods meanwhile having to remain at the customs.

## EXPECT PAYMENT BEFORE GOODS INSPECTED.

In Weekly Report No. 30, page 9, Mr. MacNamara, Manchester, England, in speaking of faulty Canadian methods, states—,

‘It has been stated to me by reliable importers that bill with draft attached has reached them in advance of the goods covered by the same, and the banks ask them to accept on presentation.’ Another great source of complaint by the trade is that full amount is drawn for, rather than 50 to 70 per cent of the value and for the balance remittance by the consignee on full examination and approval of the shipment.’

## CONTRACTS REPUDIATED.

Mr. MacNamara continues:—‘Firms have striven hard to cultivate business relations with Canada in wood products and have been only partially successful owing to the fact that after contracts had been regularly agreed to and signed they were only partially executed, and in some cases entirely repudiated. Another difficulty seems to present itself to the English importer, namely, that Canadian shippers ask importers to be both buyer and seller. It seems a rather strange statement, and if true, a most unbusiness-like idea to ask buyers what they can pay for an article. . . . I am informed that there seems to be a disinclination on the part of Canadian shippers of wood products to figure out data, and calculate cost, but would like possible buyers to do this for them.

## NOT UP TO SAMPLE.

In Weekly Report No. 43, page 5, Mr. MacKinnon, Bristol, England, states,—“It is claimed that Canadian shipments do not always prove equal to the samples on which the orders were given. A serious charge of this nature has just been laid before me particulars of which will be forwarded in due course. It should be noted that even if it is in the shipper’s power to prove that the fault was not his or was not intentional, and that he used reasonable care to prevent it, yet a certain amount of discredit inevitably follows such a dispute.’

## NOT IN TERMS OF CONTRACT.

Mr. McKinnon further states that a similar complaint to the above which has reached him is that shipments are not always in accordance with the terms of the contract. ‘A case was mentioned where a Canadian firm contracted for a shipment in June, dispatched the goods about July 10, and explained that it was “practically a June shipment”. Leading merchants are aware how vital a thing is punctuality, time being often of the essence of the contract, but beginners in the export trade sometimes overlook its importance. I have been asked, therefore, to secure the publication of an earnest Departmental appeal to all exporters to see that Canada is free from the reproach of unbusinesslike methods in this particular’.

I have the honour to be, Sir,

Your obedient servant,

F. C. T. O'HARA,

*Superintendent of Commercial Agencies.*

## COINAGE, WEIGHTS AND MEASURES

To assist in arriving at a comprehensive understanding of the value of foreign currencies, weights and measures (as expressed in foreign trade returns, tariffs, &c.,) as compared with those of Canada, tables have been prepared as follows:—

As regards those of Canada, the law provides that the denominations of money in the currency of Canada shall be dollars, cents and mills, the cent being the one hundredth part of a dollar, and the mill one-tenth part of a cent.

That—The currency of Canada shall be such that the British sovereign (the pound sterling) of legal weight and fineness, shall be equal to four dollars eighty-six cents and two-thirds of a cent.

In like manner the law provides as respects weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce ( $437\frac{1}{2}$  grains) one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy, or 5,760 grains a pound troy.

As regards measures—that the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon containing ten standard pounds weight of distilled water weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon commonly known as the 'Imperial Gallon,' contains 277.274 cubic inches, or 353.036 cylindrical inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

In many countries the Metric system of weights and measures has been adopted. A separate table of Canadian equivalents of these is given in order to avoid repetition, the word 'Metric' being used in the general table in each case where the system is in vogue, as indicating a reference to that table.

The equivalent value of the monetary unit can only be given as respects those countries having a gold standard. Where silver is the standard, the value of the currency necessarily fluctuates correspondingly to the market value of silver bullion, and were any attempt made to quote the value of such currency it would, under present circumstances, be misleading, therefore, the weight in decimal parts of an ounce with the fineness of the coin is given instead, which will enable any one to approximate the value of the currency according to the current value of fine bar silver. As an example, say fine bar silver at 75 cents an ounce, the Bolivian dollar weighs .801 of an ounce, its fineness is .900, therefore  $75 \times .801 = 60.075$  which  $\times .900 = 54.0675$ , or a small fraction over 54 cents, and the actual intrinsic value of the pure silver contained in the coin, to which should be added a reasonable allowance to cover the value of the alloy, the cost of the coinage, and in some instances exchange, the aggregate of which would be approximately the current value in Canadian currency of the dollar in question.

Unless carefully noted, the quotations as usually given of the current value per ounce of silver may be misconstrued and lead to misapprehensions, as it is sometimes quoted per ounce *fine*, and sometimes per ounce *standard*; thus for instance on a certain day the London quotation reads 'fine silver per ounce standard 32 d.,' while on the same day it is quoted in New York '69½ cents per ounce fine,' as 32 d. is equal to a fraction over 64½ cents, there would appear a difference of about 4½ cents per ounce between the two prices, the New York price appearing that much in excess of the other, were it not noticed that one is based upon *standard* fineness and the other upon absolute fineness, but by reducing the New York "fine" to London "standard" (of .925 fine, or 444 grains fine to the ounce) the actual difference between the two quotations is found to be only about  $\frac{1}{8}$  of one cent per ounce, the London price being that much in excess of the New York.

## SESSIONAL PAPER No. 10

To reduce the value of *standard* or sterling silver when expressed in pence to *fine* expressed in cents, multiply the pence and decimal parts thereof by 2·192.

To find the *standard* or sterling value expressed in pence and decimal parts thereof when *fine* is expressed in cents multiply the cents by 0·4562.

\* Old weights and measures sometimes used. The values in Chinese Imperial Customs Returns are always given in Haikwan taels, which are relatively in value equal to about 1.113 Shanghai taels. The tael is in reality not a standard of value (there is no such coin), but of weight, and when used in the sense of a value it only represents its weight in gold or silver, as the case may be, the real difficulty is to establish its exact equivalent in grains. Authorities differ greatly, as also does the practice in different sections of China. The Chinese are far from being inexact, and the probability is that there exists a standard, and a further probability that it is equal to 10 Japanese monmes, or 579.72 grains, which figures have been used in computing the value as above. It will be observed, however, that these figures fall short about 3.61 grains from the weight usual (say 1½ oz. per tael) in dealing with the weights other than those of gold and silver. \$ Usually reckoned same as Chinese Picul of 133½ lbs. <sup>+</sup> This is long measure. Therefore by cloth measure 1 sun = 1.4916 in. 1 shaku = 14.916 in. and 1 jo = 149.6 in.

TABLE of constant Factors, which multiplied by the current value per ounce of silver, either pure or standard as the case may be, will give the value of the silver contained in the coin referred to, to which if there be added a small percentage to cover the value of the alloy and the cost of coinage, the aggregate will equal the then intrinsic value in Canadian currency of the coin in question.

	982	41,186,000

With reasonable railway transportation facilities this is estimated to take care of 100,000,000 bushels wheat.

The Canadian Northern Elevator at Port Arthur is the largest having a capacity of 3,350,000 bushels.

There are but few 3,000 bushel warehouses in operation at present, although there are 60 under 10,000 bushels. The average capacity for all elevators, and warehouses exclusive of the 6 Terminals is about 28,000 bushels.

Licenses issued for 1903-4.

4-5 EDWARD VII., A. 1905

## CHINESE IMMIGRATION.

No. 45.—STATEMENT showing the TRANSACTIONS under the CHINESE IMMIGRATION ACTS to June 30, 1904.

The original Act went into force as respects arrivals by vessels sailing from ports in North America on August 20, 1885, and as respects arrivals by other vessels on January 1, 1886, *vide* 48–49 Victoria, chapter 71.

The Act as it appears in the Revised Statutes, chapter 67 (1886), is slightly changed from the original. There have been since then two amendments thereto, viz.: as per 50–51 Victoria, chapter 35 (1887) and 55–56 Victoria, chapter 25 (1892).

These general Acts were repealed by the Act 63–64 Victoria, chapter 32, which came into force Jan. 1, 1901. There has been since then one amendment thereto, viz.: as per 2 Edward VII., chapter 5 (1902).

The Act 63–64 Victoria, chapter 32 (1900) and Act 2 Edward VII., chapter 5 (1902), are repealed by the Act 3 Edward VII., chapter 8 (1903), which came into force January 1, 1904.

The administration of the Act was by Order in Council of September 1, 1885, assigned to the Department of Customs and transferred to the Department of Trade and Commerce by Order in Council of March 13, 1893.

The annual revenue, expenditure, &c., has been as follows :—

During the same period 18,555 Chinese have taken out certificates of leave or registered for leave up to June 30, 1904, while a very large number have left the country without so registering, having no intention of returning, so that, for this latter reason, the exact number remaining in the country is uncertain.

(a) The returns of the Exports to Norway in the years 1898-1901 are incomplete, owing to the abrogation in 1898 of the special law (Mellanriihlagen) regulating the trade between Sweden and Norway. In 1902, however, complete returns of rail-borne Exports to Norway have been obtained.
